PROFILE

38M+ orders, £16bn+ client assets and 25,000+ referrals a year: the scale behind my business analysis work across e-commerce, wealth management and public healthcare in the UK and Germany. Currently own **20+ operational KPIs** at ABOUT YOU, resolve **10+ data anomalies a month** with SQL and Looker, and run AI workflows that save **~5 hours a week**. Delivered KPI reporting for **5 departments** at Mattioli Woods, saving **a full working day every week** with **Power BI** and cutting posting errors by **25%**; raised NHS data accuracy by **20%**. Build **AI agents and analytics tools**, run A/B tests and turn complex data into clear, actionable insights for managers and non-technical stakeholders alike.

CORE COMPETENCIES

Generative AI & Automation: AI agent and workflow design for automated KPI reporting · Claude, Gemini, Rovo
Data Analytics: Multi-source data analysis, root-cause analysis, A/B testing · SQL, Google BigQuery, Python, R
Business Intelligence: Power BI and Looker dashboards replacing manual reporting · Advanced Excel, Power Query
Financial Analysis & Controls: Financial KPI reporting, accounts payable controls, invoice validation and data quality
Project Delivery: Task tracking, process documentation and knowledge management · Jira, Confluence, GitHub
Stakeholder Management: Cross-functional alignment, management reporting, data storytelling, team training

PROFESSIONAL EXPERIENCE

Business Analyst (Process Owner & Operations) — Dec 2025 – Present

ABOUT YOU, Fashion E-Commerce Platform (38M+ orders a year) · Fulfilment Services · Hamburg

- Build **AI agents and workflows** in Gemini and Atlassian Rovo that automate ticket analysis and KPI reporting
- Save **~5 hours a week** of manual work by replacing recurring reporting and documentation with **AI automation**
- Led an **AI-assisted** knowledge project, analysing **1,000+ tickets** to build a central **Confluence** solutions directory
- Apply **prompt engineering** with Claude, ChatGPT and Gemini to accelerate data analysis, checks and reporting
- Own **20+ operational KPIs** across **3 fulfilment models**, resolving **10+ anomalies a month** in **SQL and Looker**
- Cut ticket resolution time and IT support workload by **up to 25%** by standardising fixes for recurring system issues

Career Break · *Moved from the United Kingdom to Germany* — Feb 2025 – Aug 2025

Data Administrator (Reporting & Analytics) — May 2024 – Jan 2025

NHS Mental Health Services (county-wide, 25,000+ referrals a year, 4 clinical teams) · United Kingdom

- Raised data accuracy by **20%** across case-management records by introducing validation and governance checks
- Lifted team productivity by **15%** through process automation in a county-wide service spanning 4 clinical teams
- Designed real-time **Power BI dashboards** tracking referrals, waiting times and appointments for 4 team managers
- Freed up **a full working week** of manual effort by automating recurring reports and referral workflows end to end
- Trained **10+ colleagues** on the new reporting and data-entry processes introduced across the whole service

Business Analyst — Dec 2022 – Dec 2023

Mattioli Woods, Wealth Management (£16bn+ client assets, 16,000+ clients, 900+ employees) · United Kingdom

- Delivered monthly **financial and performance KPI reporting** to **5 departments** across the whole business
- Automated manual reporting with **Power BI and Excel dashboards**, saving **a full working day every week**
- Reduced invoice posting errors by **25%** by designing and rolling out standardised accounts payable controls
- Validated **500+ supplier invoices a month**, safeguarding the accuracy of financial data before every posting

- Presented monthly performance insights to **10+ stakeholders**, turning complex data into clear recommendations

E-Commerce Analyst Aug 2020 – Sep 2021
Enablers, E-Commerce Consultancy (11 offices, 15+ client brands) · Pakistan

- Lifted ROAS by **20%** by optimising conversion rate, average order value and paid campaign KPIs for client brands
- Analysed paid search, website and marketplace data for **15+ client brands** to steer campaign performance
- Delivered market and competitor analysis across **5+ product categories** to inform client growth strategy
- Improved analytics efficiency by **30%** by training internal teams on data quality and analytics best practices

Junior Business Analyst (Part-time) Jan 2016 – Jul 2020
Khan's Academy · Pakistan

- Delivered **20+ data-driven recommendations** from KPI analysis of **30+ campaigns** over more than four years
- Cut administrative costs by **15%** by streamlining administrative workflows and processes with internal teams
